Authorization for this Examiner's Amendment was given in a telephone interview with Suzanne Hollinger on December 20, 2007.

The following is an Examiner's Statement of Reasons for Allowance:

Examiner notes applicant's amendments and finds that some of the issues noted in the previous Office action have been effectively addressed. The remaining issues of definiteness, grammar, terms of art, and technical terminology have been addressed by the above amendments, including the identification of the "coupling reagents" required to execute the condensing step as disclosed for different reactants in the prior art newly supplied by applicant. Therefore, the instant claims as presently amended have been found to be allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
